Professional Summary

Computer Science Engineering student with strong communication, analytical, and technical problem-solving abilities. Experienced in building full-stack applications, translating user requirements into solutions, and collaborating in teams. Seeking a Business Development / Pre-Sales opportunity to leverage technical background, market research skills, and client-facing communication to drive business objectives.

Skills

Business Development: Market Research, Lead Generation, Prospect Identification, Account Mapping, Client Communication

Technical Skills: Java, JavaScript, React.js, Node.js, Express.js, MongoDB, SQL, REST APIs, Docker, AWS, System design, redis, microservices, Git, Postman, JWT Authentication, Tailwind CSS, Backend, AI Integration .

Professional Attributes: Presentation Delivery, Requirement Gathering, Problem Solving, Cross-functional Collaboration

Experience

Web Development Intern
CodeSoft

Nov 2024 – Dec 2024

- Collaborated with cross-functional teams to analyze project requirements and deliver tech solutions within deadlines.
- Conducted market/feature research for strategic planning and presented technical findings during review discussions.
- Acted as a bridge between technical logic and stakeholder requirements to improve product delivery.

Projects

RentMate – Smart Rental Management System

MERN Stack

- Analyzed rental market challenges to design a centralized management platform for landlords and tenants.
- Gathered business requirements and translated them into actionable functional software modules.
- Implemented RESTful APIs for automated rent tracking, data management, and secure role-based access.

VIBE – Social Networking Platform

MERN Stack

- Studied user engagement metrics to deploy a platform featuring real-time interactions and notifications.
- Handled end-to-end frontend and backend integration, ensuring seamless user flow and data validation.

TaskFlow – Admin User Task Management System

React.js

- Built an enterprise-style dashboard for task distribution, workflow tracking, and resource monitoring.
- Optimized task flows to improve team productivity and overall operational visibility.

Education

Bachelor of Technology (Computer Science Engineering)
SSGB College of Engineering & Technology, Bhusawal

Pursuing
CGPA: 7.8

Higher Secondary Education (Class XII)
Jagjivandas English Medium School & Junior College

2021
Percentage: 74.17%

Certifications

- Full Stack Web Development Training – Apna College (2024)
- Web Development Internship Certificate – CodeSoft (2024)
- Introduction to Cloud Computing – Infosys Springboard (2025)
- Fundamentals of Statistics and Visualization in Python – Infosys Springboard (2025)
